### INDEPENDENT AUDITOR'S REPORT

I have audited the accompanying statement of financial position of the Food Bank of Yolo County (a non-profit corporation) as of June 30, 2012, and the related statements of activities, functional expenses, and cash flows for the year then ended. These financial statements are the responsibility of the Organization's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Food Bank of Yolo County as of June 30, 2012 and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued our report dated September 28, 2012, on my consideration of the Food Bank of Yolo County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with the *Government Auditing Standards* and should be considered in assessing the results of my audit.

My audit was performed for the purpose of forming an opinion on the basic financial statements of the Food Bank of Yolo County taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain other procedures, including comparing and reconciling such information directly to the underlying accounting and records used to prepare the financial statements themselves, and other addition procedures in accordance with auditing standards generally accepted in the United State of America. In my opinion is information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**FOOD BANK OF YOLO COUNTY**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2012**

**Note 1 - Significant Accounting Policies**

**Operations** - The Food Bank of Yolo County (hereinafter the "Food Bank") is a nonprofit organization that collects, stores and distributes food and other products to charities serving the needy in Yolo County, California since 1971. The Food Bank is supported primarily through donor contributions and grants. It also receives approximately one-third of funding from government grants and the USDA commodities program.

**Method of Accounting** - The financial statements of the Food Bank have been prepared on the accrual basis of accounting, reflect all significant receivables, payables and other liabilities.

**Basis of Presentation** - Financial statements presentation follows the recommendation the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, *Financial Statement of Not-for-Profit Organizations*. Under SFAS No. 117, the Organization is required to report information regarding its financial position and activities according to three classes of net assets, unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

**Use of Estimates** - The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

**Cash and Equivalents** - The Food Bank considers all highly liquid temporary cash investments with maturities of three months or less to be cash equivalents for the purposes of the statement of financial position and statement of cash flows and represent fair value. The Food Bank had \$0 in excess of FDIC and other insured limits as of June 30, 2012. The Food Bank has not experienced any material losses in such accounts.

**Contributions** - The Food Bank's accounts for contributions in accordance with the recommendations of the Financial Accounting Standards Board in FASB No. 116, *Accounting for Contributions Made*. In accordance with FASB No. 116, contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence or nature of any donor restrictions. Donor restricted contributions whose restrictions are met in the same fiscal year are reported as unrestricted contributions.

**Property and Equipment** - Use of restricted funds for property and equipment acquisitions are expensed in the year acquired. Additionally, items with a cost in excess of \$2,000 and donated assets with a fair market value in excess of \$2,000 are capitalized. Depreciation is computed on the straight-line method over the various economic lives of the assets. Property held by the Food Bank but for which the title reverts to the grantors

is treated as a grant expense in year acquired and not presented as property and equipment on the statement of financial position.

**Income Tax** - The Food Bank is exempt from Federal and State Franchise Taxes under section 501(c)(3) of the Internal Revenue Code and Section 23710(d) of the California Corporations code. It has been classified as an organization that is not a private foundation. Therefore, charitable contributions are tax deductible.

The Organization has recognized in the financial statements the effect of all tax positions and continually evaluates expiring statutes of limitations, audits, changes in tax law, and new authoritative rulings. The Organization is not aware of any circumstances or events that make it reasonably possible that any unrecognized tax benefits may increase or decrease within twelve months of the statement of financial position date. Penalties and interest assessed by taxing authorities are included in the Organization's expenses, if applicable. There were no interest or penalties paid during the fiscal year ending June 30, 2012.

The Organization files an exempt organization return in the federal jurisdiction and California state return. The returns prior to 2007 are closed.

**Accrued Vacations** - The Food Bank records a liability for the cost of unused employee benefits in the event of employee terminations. The amount available earned vacations at June 30, 2012 is \$11,739.

**Expense Allocation** - The costs of providing the various programs and other activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated among the programs benefitted.

**Donated Services** - A substantial number of volunteers have donated significant hours to the organization's programs and fund-raising campaigns during the year, however, these services are not reflected in the financial statements since the services do not require specialized skills.

**Donated Food and Grocery Products** - The Food Bank reports gifts of donated food and grocery products over which it has control as unrestricted public support and as an expense when distributed to local food closets, rescue organizations and kitchens. During the year ended June 30, 2012 the Food Bank received 2,685,868 pounds of donated products from national and local donors, valued at a composite price of \$1.66 is reflected in the accompanying statements of activities at \$4,458,541. The composite price is the estimated weighted average wholesale amount per pound.

**(continued)**

**Note 2 - Inventories**

**Inventories** - Purchased inventories are stated at the lower of cost (first-in, first out method). Commodities are stated at the USDA published commodity price per case. Other donated inventories (national and local) are stated at the average composite wholesale value per pound of \$1.66. The composite price is the estimated weighted average wholesale amount per pound.

Inventories at June 30, 2012 consist of the following:

Donated food inventory	
at estimated weighted average wholesale amount per pound	\$ 363,414
Commodities inventory	
at USDA published commodity price per case	<u>\$ 164,245</u>
Total Inventory	<u>\$ 527,659</u>

**Note 3 - Grants Receivable**

Grants receivable represent reimbursements from the following sources for program costs incurred prior to June 30, 2012:

CAFB	\$ 13,507
California Department of Social Services – EFAP	23,400
City of Woodland – CDBG	<u>814</u>
Total grants receivable	<u>\$ 37,721</u>

**Note 4 - Disclosure About Fair Value of Financial Instruments**

The following methods and assumptions were used to estimate the fair value of each class of financial instrument. The estimated fair value of the Food Bank's financial instruments approximates the related carrying value except as indicated below:

Cash and equivalents - The carrying value approximates fair value because of the short term nature of these instruments.

Grants receivable and accounts payable - The carrying amounts of the accounts receivable and accounts payable approximates fair value based on prior actual results.

Total	<u>\$ 794,369</u>	<u>\$ 368,241</u>	<u>\$ 26,128</u>

**Note 6 - Line of Credit**

The Food Bank has an unsecured line of credit with First Northern Bank in the amount of \$75,000 with an effective rate of interest of 7.75%. At June 30, 2012, the amount owed on the line of credit was \$0.00 and available reserves on the line of credit were \$75,000.

**Note 7 - Lease commitments**

The Food Bank, in March 2008, and entered a ten (10) year non-cancelable lease which was modified in 2011 for warehouse, public and office space at \$4,000 per month. The Lease has a 10 year option and a right for first refusal to purchase when the lease term expires. The Food Bank leases a copier on five (5) year lease at \$266 per month. Also rent an office on five (5) year lease at \$300.

Future minimum lease commitments at June 30, 2012, are as follows:

2013	\$ 59,242
2014	58,192
2015	53,042
2016	43,042
2017	40,329
Thereafter	<u>27,000</u>
Total future minimum lease payments	<u>\$ 280,847</u>

**Note 8 - Comments and contingencies**

The Food Bank has received federal, state and county funds for specific purposes that are subject to review by the grantor agencies. Although such audits could generate expense dis-allowances under the terms of the grants, it is believed that any required reimbursement will not be material.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors of the  
Food Bank of Yolo County  
Woodland, California

I have audited the financial statements of the "Food Bank of Yolo County" (a nonprofit organization) as of and for the year ended June 30, 2012, and have issued our report thereon dated September 28, 2012. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing my audit, I considered the Food Bank of Yolo County's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Food Bank of Yolo County's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Organization's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material deficiency is a deficiency, or combination of control deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**  
(continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Food Bank of Yolo County's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133a**

To the Board of Directors of:  
Environmental Alternatives

Compliance

I have audited the compliance of the *Food Bank of Yolo County* (a nonprofit organization) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the period ended June 30, 2012. *Food Bank of Yolo County's* major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Food Bank of Yolo County's management. My responsibility is to express an opinion on Environmental Alternative's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Food Bank of Yolo County's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of Environmental Alternative's compliance with those requirements.

In my opinion, Food Bank of Yolo County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

The management of Environmental Alternative is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing my audit, I considered the Food Bank of Yolo County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express opinion on the effectiveness of Environmental Alternatives' internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with the type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

**REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133a  
(Continued)**

A material weakness is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, others within the organization and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
